This Friday may mark the wide release of the first official installment of the Indiana Jones franchise in almost two decades, but the real excitement arrives next month when the "best burlesque" in NYC (*New York Magazine*, *The Village Voice*) embarks on the sexy adventure of a naked lifetime... **PINCHBOTTOM and the RAIDERS of the TEMPLE of the KINGDOM of the GOLDEN BOOBS of DOOM crusade.**

A myth steeped in legend, surrounded by mystery, wrapped in secrets, dripping in sweat. The enigmatic Golden Boobs of Doom are rumored to have been worshipped by the Ancient Burlesquians as a symbol of all that was naked and sexy in their world. But when that ribald civilization fell, the legend of the Boobs sagged with time... until the late 1930s, when Nastyana Jones (Nasty Canasta)—an archeologist specializing in erotic artifacts—finds a pornographic map that will lead her down the glory trail to adventure.

But in a world on the brink of war, Nastyana isn't the only person trying to get her hands on the Boobs. And if she can't uncover the gilded bazooms before the evil Baron Schweintörte (Jonny Porkpie), the darkness creeping across Europe may cast a shadow across the breasts of everyone on the planet.

Every summer, Pinchbottom produces one show so big and so sexy, it brings new meaning to the phrase "tentpole release". This June 20 & 21, the tradition continues with a brand-new burlesque blockbuster featuring beautiful women, exotic locales, full-tilt chase scenes, and multi-dollar special effects! The classic adventure movie is coming to the Collective:Unconscious stage as only Pinchbottom can bring it. "Your perverted genre fantasies have come shimmying to life" (*Time Out New York*) once again in **PINCHBOTTOM and the RAIDERS of the TEMPLE of the KINGDOM of the GOLDEN BOOBS of DOOM crusade.**
